National Conference on Emerging Trends in Electrical, Instrumentation & Communication Engineering

ETEIC-2012

(6th - 7th April, 2012)

Jointly Organized by:
Anand Engineering College, Agra
&
Institution of Engineers (India), IE (I)
Aligarh Chapter

Anand Engineering College,
Affiliated to MTU, Noida
Approved by AICTE and UGC
Website: www.aecagra.org

ABOUT THE INSTITUTE

Anand Engineering College was established in September 1998 by Shri Anand Swaroop Educational Trust under the aegis of Sharda Group of Institutions situated at the 18 km milestone on the Agra-Delhi Highway (NH-2). The College takes pride in itself for providing the students with an excellent environment for pursuing their studies and other interests. It leaves no stone unturned in enhancing the technical skills & knowledge of its 5000+ students of various disciplines. AEC has entered into new ventures with technical agencies like Oracle India Private Limited, NIIT Technologies, CADD Center etc. and is well poised for exponential growth in the field of technical education to cater the future need of the nation.

It is our privilege that Anand Engineering College is situated in such a beautiful city, like Agra which is a home to several world famous heritage monuments which include the inimitable Taj Mahal, Red Fort, Itmad-ud-daulah and the tomb of Emperor Akbar at Sikandra. The weather of Agra is expected to be pleasant during the month of April.

ABOUT IE (I)

The Institution of Engineers (India) was established in 1920 with an objective to promote the general advancement of engineering, technology and their applications and for facilitating the exchange of information and ideas in these areas among its members and associated engineers. The Aligarh Local Centre (ALC) was established in 1993. Since then it has been rendering its services to the engineering fraternity in various aspects of disseminating knowledge through arranging various activities regularly such as visiting lectures meetings, seminars, workshops, and conferences etc.

ABOUT CONFERENCE

The National Conference on Emerging Trends in Electrical, Instrumentation & Communication Engineering (ETEIC-2012) aims to provide a platform for deliberations on new research areas and demonstration of recent systems and techniques in the broad field of electrical, instrumentation and communication Engineering. The aforesaid engineering fields are required for number of defence & civil systems in the field of Mobile

Communication, Aeronautical, Information Technology, Energy & Bio Informatics. The conference aims to bring together the researchers, academicians, developers and users especially from Engineering Institutes, Universities, Research Laboratories like DRDO, CSIR etc. for sharing and exploring new areas of research and development.

THEME OF THE CONFERENCE

- Semiconductor Devices
- Non Conventional Energy Resources
- Analog and digital circuit design
- RF and Microwave Engineering
- Optical Networks & mobile/ wireless communication
- Information systems and network security
- Remote sensing and satellite communication
- Bio Informatics
- Advanced Power system & control system
- Sensor technology & Virtual Instrumentation
- VLSI technology & Design
- Digital signal processing
- Biomedical Instrumentation
- Embedded Systems and Robotics
- Power Electronics & Electric Drives
- System Modeling & Simulation
- Mechatronics & Avionics
- Optimization techniques
- Soft computing / Nano computing/ Grid computing
